## Summary

---

- Eager to start a career as a Quality Analyst, with a passion for ensuring software quality and reliability.
- Familiar with manual testing, basic automation concepts, and different types of testing such as sanity testing and regression testing.
- Basic understanding of writing and executing test cases, test scenarios, and reporting defects.
- Basic understanding of SDLC, STLC, and Bug Life Cycle with experience in writing test cases, executing tests, and reporting defects.

## Education

---

<b>Sethu Institute of Technology</b>	2019 – 2023
• Bachelor of Engineering (B.E.) in Electronics and Communication Engineering – CGPA: 8.3	
<b>SethuRajan Padma Higher Secondary School</b>	2018 – 2019
• HSC in Computer Science – 57%	
<b>St. John Peter Matriculation School</b>	2016 – 2017
• SSLC in General Studies – 83.6%	

## Experience

---

<b>Internship Trainee, Smiligence</b>	Mar 2025 – July 2024
<b>Projects</b> Human Resource Management Portal	
• Worked on the HRM portal focused on modules like employee check-in/check-out, attendance tracking, and leave management.	
• Gained practical experience in both manual and automation testing, contributing to overall product stability and quality.	
• Participated in manual testing, verified functionality, and validated to support QA efforts.	
• Collaborated with business analysts and QA teams to identify, track, and resolve defects during development and UAT phases.	
• Developed and executed basic automation scripts using Selenium WebDriver to streamline repetitive test scenarios, improve regression test coverage, and reduce manual effort.	
• Actively participated in daily stand-up meetings and sprint reviews to align on bug fixes, testing outcomes, and deployment readiness.	

## Skills

---

**QA & Testing:** Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Defect Reporting, Bug Reproduction, Test Case Execution, UAT Support

**Automation & Tools:** Selenium WebDriver, Visual Studio, Eclipse, PyCharm

**Documentation:** Excel, Google Sheets

**Programming Languages:** Java, Python, JavaScript

**Source Control:** Git, GitHub

## Certifications

---

- Java Fundamentals and OOP Concepts – Udemy 
- CSS – Udemy
